Swan Mill Paper Company Ltd

Christmas 2025

Christmas Tableware, Cracker
& Party Products

At Swan Mill we are always conscious of our impact on the environment and preserving the planet for future generations.

Our napkins and tableware are manufactured at our site in the UK on FSC® paper which reduces our carbon footprint. Plus, we are constantly making improvements within our cracker and party product offer to make it more sustainable.

Several years ago we took out all single use plastic from our crackers, we have introduced paper content which is recyclable and we are transitioning all our crackers to have plastic free content. This means that 100% of our crackers are either completely plastic free or have reusable content.

In addition, 100% of our crackers are recyclable and many are made from FSC or recycled board.

Plus, all our packaging is made from recycled cardboard and can be fully recycled.

We have introduced some colour coding so you can tell those that are FSC or entirely plastic free on top of being 100% recyclable.

-  This means the cracker itself and its content is made from mixed FSC® certified paper
-  This means the content inside your cracker is plastic free

Swantex

Swan Mill Paper Company Ltd

Welcome to our Christmas 2025 catalogue.

Christmas is a key season for the hospitality sector, and in 2025, it is more important than ever. With over 35 years of experience in creating catering crackers and coordinating tableware, we are once again proud of the collections our design team has created. We believe this catalogue offers everything you need for your cracker, tableware, and party product requirements, with a range of designs, styles, and price points to suit your needs.

We know that understanding the environmental impact of our products is essential to us all and we are pleased to announce that we have removed all plastic from the contents of our crackers. All our crackers are fully recyclable, and we've highlighted this commitment on the mottoes. Additionally, we have expanded our FSC® certified collection.

This year, we have expanded our 9" and 10" cracker ranges and resized our children's crackers from 11" to 9" to better meet consumer feedback. For those seeking a quieter celebration, we've also introduced a new "snapless" 9" cracker, perfect for a more peaceful Christmas experience whether that be at a school, nursing home or other location.

As a UK-based tableware manufacturer, we are uniquely positioned to understand the full needs of the Christmas "away-from-home" market. These include value, coordination, design, size, environmental credentials, content, 'newness' and range plus the benefits of getting all this from one source. We hope we can provide these to you including our carefully researched new tableware and matching cracker collections which are featured throughout the catalogue and our extensive range of napkins and table coverings (pages 4-12) which will coordinate beautifully with many of our crackers across various sizes and content options.

We encourage you to place your order early to secure the exact crackers and tableware you want. However, we maintain healthy stock levels, and for a loyal customer, we will do our best to accommodate any last-minute orders in December.

If you require further information, please don't hesitate to contact us and one of our specialist sales team will be delighted to discuss your requirements for Christmas 2025.
